

CBG 'n Me

-Blow Paint Monsters-

Materials Needed:

- Washable tempera paint
- Sturdy white paper or card stock
- A straw
- Bowls (1 per color)
- Spoons (1 per color)
- Markers

Instructions:

- Put a quarter-sized amount of paint in a bowl. Repeat this step for each color of paint in a separate bowl.
- Dilute each color of paint with a little bit water and stir. If the paint looks too thin, add some paint to thicken it back up.

- Use the spoon to put dots of paint on the paper. You can do big dots, small dots, mixing colored dots together, putting the dots closer together, or anything thing else you can imagine.

- Use the straw to blow on the dots of paint. (Be careful, this part may get messy!) Try different angles to make the paint move to different areas of the paper.

- Let your picture dry.
- Use a marker and draw eyes and a mouth monsters!
- Be creative.

- Does your monster have 1 eye or 10 eyes? Are they a happy monster or a scary monster? Does your monster have multiple mouths with scary teeth or maybe 1 mouth with a beautiful smile? Does your monster have legs and arms? Maybe your monster has glasses or a bowtie? The possibilities are endless!
